## OBJECTIVES

I am seeking a place to grow in a software career where I can innovate, learn, and contribute my unique experiences and skills to real-world projects and solve large-scale issues alongside diverse teams. Continuous innovation is critical to a successful company and team. Through my leadership experiences, I have gained an appreciation for fostering a positive team atmosphere, maintaining a clear vision, and valuing individual contributions. Alongside my skills, I will approach the team with an attitude of learning and adaptability. I am excited to bring this mindset and skillset to the development team.

## JOB HISTORY

### C.K. Wyand Consulting, Columbus — Intern

JANUARY 2023 - JULY 2023

Work is remote and consists of developing projects through their entire life-cycle. The most recent project will continuously run to keep the server clean of orphaned files. This was developed using SQLServer, Visual Studio 2022, C#, and Azure technologies while following Agile and best practices.

### UPS, Columbus — Package Handler

JULY 2021 - JULY 2023

Work consists of moving and organizing parcels and is heavily reliant on teamwork. Clear and strong communication is essential in this fast-paced, ever-changing environment. Awareness of your surroundings and ability to adapt and assist others is important for smooth functioning.

## EDUCATION

### TOLCS, Columbus — H.S. Honors Diploma

I graduated TOLCS with Honors by taking AP/Honors courses, maintaining a high GPA, and volunteering. I also participated in cross-country, band, and the academic quiz team-In The Know. My voluntary leadership experience comes from many places including: church, community, children, and construction.

## BEYOND...

Through library, online and inter-personal resources, I have gained knowledge and experience in a variety of technologies and practices. Currently, I am improving my C# knowledge and learning about the Java Spring Framework (Boot, JSP etc.).
